

## NHS Covid-19 Pass Letter

If you are travelling in this country or abroad, or are attending an event and need to have proof that you have had your Covid-19 vaccinations, please DO NOT contact the GP surgery. We are not able to provide proof that you have had your Covid vaccinations.

It is YOUR responsibility to check with your travel company or booking agents whether you need to provide proof of your Covid vaccination status. If this is required, please follow this link:

<https://www.nhs.uk/conditions/coronavirus-covid-19/covid-pass/get-your-covid-pass-letter>

You can use this NHS service if the following apply:

- you have had 2 doses of the Covid-19 vaccine
- you had your vaccination in England
- you are aged 16 or over

You can use this service 2 weeks after you have had your second dose.

You will be asked some questions online so that NHS England can find your vaccination record, then a letter will be sent to the address which you have registered with your GP surgery. You should get this letter within 5 working days. Please ensure that your home address and contact details are up to date with your GP, as NHS England cannot take responsibility for sending out your letter to an old address if you have moved and not informed your GP surgery.
